

D-Link DWL-G122 Compact Wireless USB Adapter|802.11g|54Mbps

Product Specification

|                       |                                                                                                                               |
|-----------------------|-------------------------------------------------------------------------------------------------------------------------------|
| Brand                 | D-Link                                                                                                                        |
| Model                 | DWL-G122                                                                                                                      |
| Type                  | USB Adapter                                                                                                                   |
| System Requirements   | Windows 2000 (SP4), XP (SP3), or Vista (32bit/64bit)   CD-ROM drive   20MB hard disk space   Available USB port               |
| Standards             | IEEE 802.11g   IEEE 802.11b   USB 2.0                                                                                         |
| Frequency             | 2.4GHz to 2.4835GHz                                                                                                           |
| Antennas              | Integrated Antenna                                                                                                            |
| Security              | 64/128-bit WEP data encryption   Wi-Fi Protected Access (WPA/WPA2-PSK, WPA/ WPA2-EAP)   Wi-Fi Protected Setup (WPS) - PBC/PIN |
| Operating Temperature | 0º to 40º C (32º to 104º F)                                                                                                   |
| Storage Temperature   | -20º to 65º C (-4º to 149º F)                                                                                                 |
| Operating Humidity    | 10% to 90% non-condensing                                                                                                     |
| Storage Humidity      | 5% to 95% non-condensing                                                                                                      |
