

Gigabyte Nvidia GeForce GTX 1660 Super OC 6GB Graphic Card|GV-N166SOC-6GD

#### Product Specification

|                          |                                     |
|--------------------------|-------------------------------------|
| Brand                    | Gigabyte                            |
| Series                   | GeForce GTX 1660 SUPER OC           |
| Model                    | GV-N166SOC-6GD                      |
| Memory Suppotrs          | 6 GB                                |
| Memory Type              | GDDR6                               |
| Memory Bus               | 192 bit                             |
| Memory Clock             | 14000 MHz                           |
| Maximum Memory Bandwidth | 336 GB/s                            |
| Core Clock               | 1830 MHz (Reference Card: 1785 MHz) |
| CUDA cores               | 1408                                |
| Card Bus                 | PCI-E 3.0 x 16                      |
| Digital max resolution   | 7680x4320@60Hz                      |
| Multi-view               | 4                                   |
| PCB Form                 | ATX                                 |
| DirectX                  | 12                                  |
| OpenGL                   | 4.6                                 |

|        |                                   |
|--------|-----------------------------------|
| Output | DisplayPort 1.4 *3   HDMI 2.0b *1 |
|--------|-----------------------------------|
